Start	: Date:			
Nam	e:	_ Grade/ Homeroom:	Teacher:	
1.	Sensor Glucose (SG) is the value displayed	d on the sensor and Blood Glucos	e (BG) is the value obtained from a fingerstick.	
2.	School personnel and/or student should always check that the sensor is fully attached to the body.			
3.	School personnel are not expected to follow	onnel are not expected to follow on Dexcom Share or Medtronic Connect.		
4.	Do not disconnect CGM for sports or activities.			
5.	If adhesive is peeling off, reinforce with medical tape.			
6.	If CGM falls off, do not throw pieces away,	place in a bag, and contact and re	n a bag, and contact and return to parents. from CGM device. GM. Tylenol is OK with Dexcom G6, Libre or Medtronic.	
7.	Insulin injections should be at least 3 inches	s away from CGM device.		
8.	Do not give Tylenol while using the Dexcom	o not give Tylenol while using the Dexcom G5 CGM. Tylenol is OK with Dexcom G6, Libre or Medtronic.		
9.	Do not use SG to determine if student ha	o not use SG to determine if student has been adequately treated for a low. This should be determined with BG.		
Stuc	dent Information			
TYPE	E OF CGM: □ Dexcom G5/G6 □ Freestyl	e Libre		
□ Мє	edtronic Guardian with Threshold Suspend	□ On □ Off		
□ Me	edtronic 670G (see attached)			
□ Ta	ndem Basal IQ with Dexcom G6 – if basal	suspended at mealtime, ok to	resume insulin prior to bolus
