

Creating Extraordinary **artists**

The Visual Arts Department helps students develop and refine their skills in creative thinking, reasoning and synthesizing using expression, observation and diversity.

Art is a skill that can be learned, and all students can become true artists – regardless of their inherent ability. Our role on all levels is to foster awareness and appreciation of how God's design found is found throughout our world: in the order and beauty of our visual environment and in our potential as creative beings.

TOP 5 REASONS TO TAKE A VISUAL ART CLASS:

- 1** Working in the arts helps students develop creative problem-solving and critical thinking skills.
- 2** Art instruction helps students with the development of motor skills, language skills, social skills, decision-making, risk-taking and inventiveness.
- 3** Visual arts teach students about color, layout, perspective and balance: all techniques that are necessary in presentations (visual, digital) of academic work.
- 4** The arts provide challenges for students at all levels.
- 5** Art education connects students with their own culture as well as with the wider world.

HOW CAN YOU GET INVOLVED?

Check out any of these events or activities that are sponsored by the Art Department:
